

JEHT Emergency Fund

In order to provide an additional cushion to assist grantees we shared with the former JEHT Foundation, we are proposing an extension of the JEHT Emergency Fund. The budget for the JEHT Emergency Fund line is not listed as part of the U.S. Programs budget, but rather is part of the President's Office budget. We nevertheless include it here because a substantial portion of the grantmaking will be provided to U.S. Programs grantees and administered by U.S. Programs staff. The total amount we are requesting for U.S. Programs grantees in 2010 is \$3.8 million, which is substantially reduced from the amount we administered through the emergency fund in 2009. The 2010 funds will be distributed only to core grantees of U.S. Programs that were already JEHT grantees at the time of the closure.
