Please Rank each question using 1-5 scale with 1= weak,
5=excellent

Questions to guide proposal review

Scope of Work

1. Does the proposal provide an adequate outline of how the applicant will collect, analyze and present information to help determine the focus and reach of the Technical Assistance Initiative?
2. Does the applicant provide preliminary data that might inform the selection of fields, geographic regions, new business models etc. to be considered in this initiative? IF not does the applicant clearly outline how that data will be obtained?
3. Has the applicant provided a clear outline of the steps they would take towards developing an implementation and evaluation plan?
4. How well does the applicant provide a description of how they will design and provide technical assistance support and peer learning opportunities to participating grantees?
